Carrabelle Beach and Sunset Beach

Supplies for Adopt-a-Nest Program

Certificates

Envelopes

Postage

Custom
Stickers

Sea Turtle Season is May 1 to October 31

Your home is witness to a magical migration of sea turtles, all returning to the beautiful shores of St. George Island to lay their eggs.

Did you know that nesting females have laid almost 330,000 eggs on SGI since 2006? Over 250,000 hatchlings have left the beach, only to come back 30 years later to lay their own eggs.

These turtles need our help - even with our Lighting and "Leave No Trace" ordinances in place, we are still losing hatchlings every year. If violations of these ordinances are found, you as a homeowner may be subject to fines.

We want to help you help the turtles. If you want more information about the ordinances or need help with lighting, or if you'd like to Adopt-A-Nest, please call **(850) 670-7746**.

Thank you for helping us protect our special coastal wildlife!

SGI Volunteer Turtlers and Friends of the Reserve

Your home is in Section F

In the last ten years:

21,192 eggs hatched from
